

How to Paraphrase

1. Read the entire paragraph or section of text. Think about the main point the author makes.
2. Put the text aside.
3. Write the central or main idea from the text in your own words.
4. Reread the original text. Ask yourself:
 - Does the paraphrase have the same meaning as the original text?
 - Should I add or correct any details?
 - Did I use any exact phrases or unique words from the original text? Do these have quotation marks around them?

Quotation
